PLASMA-BASED BIO-OXYGEN STERILIZER

ODOUR-FREE

HOTELS

BIO-OXYGEN BASICS

100

This is the percentage by which our Bio-Oxygen Sterilizers kill Aerial Bacteria & destroy unwanted odour anywhere. Our supporting certificates are available to blow your mind away.

*3157 times stronger disinfectant than Chlorine,
160 times stronger bacteria killer than Sulphur
Dioxide, 50 times stronger than PerAcetic Acid,
37 times stronger than Formaldehyde, 1.7 times
stronger than HydroCyanic Acid.*

BIO-OXYGEN BASICS

O

This is the percentage of Toxic Residue left by Bio-Oxygen in ambient air, after destroying all harmful compounds.

Strongest Deodourizer & sterilizer gifted by Mother Nature

Bio-Oxygen is the fresh smell we feel just after rain

Blessing for human health when present in ambient air according to guidelines by Occupational Safety & Health

Administration, USA

*Approved by US Food & Drug Administration as G.R.A.S
(Generally Recognised As Safe)*

ENCLOSE250

*The product which the world needs everywhere.
Enclose250 is another revolutionary contribution from TEAM
WATERHOUSE to the World, which has the potential to cover
numerous fields & industries, where Bio-Oxygen can create better lives
for our loved ones.*

**Some of the extraordinary uses of Enclose250 are for Air
sterilization, odour removal, smoke suppression, food
storage, prevention of cross-contamination, and at least a
hundred others.**

Enclose250

- Filters Air - No**
- Sterilizes Air - Yes**
- Deodorises Air - Yes**
- Destroys Toxic Gases - Yes**
- Supresses Smoke - Yes**
- Increases Oxygen %age - Yes**
- Heavy Duty - Yes**

Air Purifier

- Filters Air - Yes**
- Sterilizes Air - No**
- Deodorises Air - No**
- Destroys Toxic Gases - No**
- Supresses Smoke - No**
- Increases Oxygen %age - No**
- Heavy Duty - No**

HOW IT WORKS

Bio-Oxygen possesses the most effective cleaning, purification, and deodorizing properties. It will react with aerial organic compounds and oxidize many unpleasant odors as well as numerous other pollutants.

Bio-Oxygen is enriched oxygen that contains one loosely attached atom and easily separates from the molecule to combine with the other organics present in air. This process, referred to as oxidation, typically eliminates these unwanted pollutants with the strongest effectiveness possible in nature.

FOOD STORAGE

FOOD	EXTENSION OF SHELF LIFE*
Fish	50-80%
Salmon	50%
Beef	30-40%
Poultry	2.4 Days
Bananas	Substantial
Strawberries	100%
Grapes	100%
Apples	Substantial
Potatoes	6 Months
Eggs	8 Months
Cheese	63 Days

HOTELS

Odour Removal : *Hotel Rooms - Housekeeping, Lounges, Banquets, Kitchen, Butchery, Garbage Rooms, Washrooms, Corridors*

Smoke Suppression : *Smoking rooms, Bars, Restaurants, Housekeeping, Lounges, Banquets, Washrooms*

Aerial Sterilization : *Kitchen, Food Storage, Housekeeping, Lounges*

SPECIAL ADVANTAGES

-
-
-
-
-

Tropical-Climate Compatible
Portable & Single Phase
Consumes Minimal Electricity : 50 Watts
No Man-power Attendance Required
Even Distribution of Bio-Oxygen

APPROVAL

- Team Waterhouse products are admired worldwide by leading brands across versatile industries
- Certifications for Complete Killing of Aerial Bacteria in Operation Theatres/ICU
- Odour removal in seconds
- Absence of Reliable & Practical Products in the market
- Used by all leading Hotels, Hospitals, Indian Army, Food Processing Plants

*Welcome to the Waterhouse
family.*

ENCLOSE250 : Made for the ones who can
afford.

TEAM WATERHOUSE

*We look forward to having your support
for ever.*
